

Namasté Deep State,

If the Deep State is finally ready to turn its back on the Antichrist (aka) the pope and his Vatican (<https://uucga.com/antichrist>) and embrace a radical course correction in alignment with the vision of the Trump-Vance administration, then Kukulcan is prepared not only to guide this cultural shift but to take the helm. Not as one of the idle critics standing on the shore, but as the first officer aboard the ship—because, after all, we live on a water-covered planet, and, as fate would have it, Kukulcan holds a maritime license. In nautical terms: it is time to retire the sinking vessels and recalibrate humanity's course back to the natural order.

This means renouncing the Romanization mindset of certain nations that have historically spilled the most blood. It means rejecting the false democracy peddled by the Biden-Harris administration, the European Parliament, the European Union, the World Economic Forum (WEF), the World Health Organization (WHO), and the Military Industrial Complex (MIC)—all of which have prioritized economic dominance over human health and the well-being of Mother Nature.

These forces seek to enslave and suppress their citizens, stripping away freedoms, locking them into 15-minute cities, and imposing a social credit system designed to ensure that the 1% own everything while the rest “own nothing and are happy.”

Reclaiming NATO & Reshaping the Global Order:

Kukulcan is prepared to take on the role of Secretary-General of NATO and to restructure the 17 Sustainable Development Goals (SDGs) of the United Nations (UN)—not as tools of technocratic enslavement, but as truly holistic principles that honor Mother Nature and align with the Universal Order, benefiting all world citizens, not just the global elite.

👉 "Current NATO policies no longer serve as a shield for freedom but as a spearhead for geopolitical enslavement. As Secretary-General, Kukulkan will reprogram this alliance—not as a war machine, but as a true force of defense, focused on world peace, sovereignty, and planetary protection."

The Spiritual and Historical Perspective:

Time cycles have proven that civilizations collapse when they disrupt the natural order. This is not just a political shift—this is the law of the universe in action.

👉 "The Roman Empire fell. The Babylonian Empire fell. The Deep State stands on the brink of the same fate—unless it chooses alignment with cosmic harmony. The choice is simple: become part of the evolution or become a relic of the past."

Exposing the WEF, WHO & the 15-Minute Cities for What They Truly Are:

👉 "Your Great Reset is nothing more than a high-tech revival of feudalism. The WHO dictates how we must live, the WEF programs how we must think, and the 15-minute cities build the walls of a digital prison. But no matrix is unbreakable. Truth vibrates at a frequency that no AI, no surveillance system, and no BlackRock billions can suppress."

Kukulkan's official motivation letter for the highest position within NATO has been published at the following website:

👉 <https://uucga.com/akashic-karma-judge>

The real question is: Does the Deep State have the courage to accept this transformation, or will it cling to a dying system?

▲ The Awakening is Here. The Choice is Yours. ▲

Subject: Application for the Position of Secretary General of NATO

Dear Members of the North Atlantic Council,

I hereby submit my candidacy for the position of Secretary General of NATO. In a rapidly changing world where geopolitical tensions continue to escalate, it is essential that NATO and the CIA realigns itself with its fundamental mission: the defense of sovereign nations and the safeguarding of global peace.

Unfortunately, in recent years, NATO has drifted away from its original objectives. Instead of serving as a shield for freedom, the alliance has increasingly become an instrument of geopolitical strategy, not always aligned with the best interests of the citizens of its member states. The use of propaganda—explicitly prohibited under international law—within military and diplomatic structures undermines not only NATO's credibility but also its effectiveness as a defensive alliance.

The law is clear: the dissemination of misleading information to manipulate public perception is a violation of international law. It is, therefore, imperative that NATO adheres strictly to principles of transparency, honest communication, and strategic policymaking that aligns with both international legal standards and ethical governance. This also means that there is no place for leadership that fails to uphold and actively promote these principles.

As Secretary General of NATO, I will advocate for a fundamental shift in direction, ensuring that the alliance reclaims its role as a true defense organization, with a focus on:

- **Fair and transparent communication**, free from geopolitical disinformation and propaganda tactics.
- **International cooperation focused on peace and stability**, rather than serving the economic or political interests of select actors.
- **A critical reassessment of current military strategies**, with full respect for national sovereignty and the rights of citizens worldwide.
- **Sustainable and ethical security measures**, balancing both civilian protection and global ecological well-being.

Border Freeze: A New Foundation for Global Stability:

The world is at a critical turning point, requiring a shift in geopolitical strategy to prevent further conflicts and instability. A **global border freeze**—locking all international borders as they stand—offers a path to lasting peace by eliminating territorial disputes, a primary cause of war.

NATO, as a key security alliance, must embrace this transformation by committing to the enforcement of **territorial integrity**, preventing border conflicts, and promoting diplomatic solutions. By doing so, NATO can transition from a reactive military force to a proactive guardian of global stability.

Failure to adapt to this necessary shift will not only weaken NATO's influence but risk making the alliance obsolete in an era where collective security demands innovative, forward-thinking leadership.

The world is currently undergoing a significant transition toward a new geopolitical equilibrium. NATO has the opportunity to play a leading role in this transformation by redefining its mission and eliminating internal structures that no longer contribute to collective security and stability. If NATO cannot or will not make this transition, the organization risks losing its legitimacy in the modern era.

I look forward to the opportunity to further elaborate on my vision and strategic plans to initiate the necessary changes within NATO. In the meantime, I have published my vision online (<https://uucga.com/akashic-karma-judge>), which may serve as additional motivation and insight into my approach.

Sincerely,

PhD J.C. van der Beek,
