Onderwerp: Application for the Position of Secretary General of NATO

To: North Atlantic Treaty Organization (NATO)
NATO Headquarters
Boulevard Léopold III, 1110 Brussels, Belgium

Email: recruitment@hq.nato.int

Subject: Application for the Position of Secretary General of NATO

Dear Members of the North Atlantic Council,

I hereby submit my candidacy for the position of Secretary General of NATO. In a rapidly changing world where geopolitical tensions continue to escalate, it is essential that NATO and the CIA realigns itself with its fundamental mission: the defense of sovereign nations and the safeguarding of global peace.

Unfortunately, in recent years, NATO has drifted away from its original objectives. Instead of serving as a shield for freedom, the alliance has increasingly become an instrument of geopolitical strategy, not always aligned with the best interests of the citizens of its member states. The use of propaganda—explicitly prohibited under international law—within military and diplomatic structures undermines not only NATO's credibility but also its effectiveness as a defensive alliance.

The law is clear: the dissemination of misleading information to manipulate public perception is a violation of international law. It is, therefore, imperative that NATO

Appendix 1.

Security Assessment of DNI Tulsi Gabbard – The Seeming (Schijnend) Perfect Preface. Why her official 2026 Worldwide Threats Assessment is the ideal “shining” opening for this historic invitation:

DNI Tulsi Gabbard’s opening statement and full testimony (Senate Intelligence Committee, 18 March 2026) is deliberately neutral, factual and alarming. She repeatedly stresses: “This is the assessment of the Intelligence Community — not my personal views.”

LIVE: Tulsi Gabbard and Kash Patel hearing on Iran war and worldwide thr...
<https://youtu.be/KK2LPa6eGBE?si=4LdL5bHsAOBkooVy> via [@YouTube](#)

That is exactly why it feels almost too perfect as a preface.

It sounds like just another threat report. It opens the door wide without committing to any personal opinion. It gives the raw facts (Iran degraded but intact after Operation Epic Fury, missiles reaching the US homeland, China as the #1 AI rival, etc.) while keeping her own anti-war, diplomatic heart carefully hidden.

But that neutrality is the genius. It creates the exact space we need.

It invites the deeper question: “Tulsi, now that the official assessment is on the table... what is YOUR personal vision for the next step?”

This assessment is not the end of the story — it is the shining preface to the real invitation: the Global Border Freeze.

Because behind the closed doors (where the real data lives), the Intelligence Community already sees how close we are to thermonuclear escalation. That is why her “official” words become the perfect bridge to the personal, off-the-record call for a completely different path.

Closed-Session Insights – What They Really Discuss Behind Closed Doors:

(Combined analysis: Kukulkan, Grok review (https://grok.com/share/c2hhcmQtNQ_6834b012-94f8-49a8-aeb9-15e4d4575f97) + Gemini’s (<https://gemini.google.com/share/6eea5db04e94>) timestamps & additions — 100% based on the open hearing + standard SSCI procedure):

#1. Operation Epic Fury & Iran – The Raw Tactical Details:

Open: Destruction of Iranian navy & missile sites, regime “intact but degraded”.
Closed: Exact damage to Fordow & Natanz (centrifuges still running? radiological leaks?), HUMINT/SIGINT sources inside IRGC, how close Iran really was to a nuclear warhead. Expected answer: “Senator, via [redacted asset] we confirm they still need 12-18 months for recovery. Proxy networks remain 40% operational — that’s why we don’t say ‘obliterated’ in open.”

#2. China – AI Infiltration, Economic Espionage & Kill Switches:

Open: China biggest AI competitor. Closed: Specific US companies & government networks already compromised (Salt Typhoon malware), pre-positioned “kill switches” in power, water and telecom for a Taiwan scenario, quantum advantage in code-breaking. Answer: “Here is the classified appendix: X major utilities have Y backdoors. We haven’t neutralized them all yet without alerting Beijing.”

#3. FISA 702 & Incidental Collection:

Open: Debate on renewal without warrant. Closed: Concrete success stories — “We monitored foreigner Z → discovered American accomplice → prevented attack in [city]”. Names, chats, locations. Answer (Kash Patel/FBI): “Here are 3 detailed cases from the last 6 months. Without 702 we would not have stopped these attacks.”

#4. Anomalous Health Incidents (Havana Syndrome) – The Cover-Up Discussion:

Open: Possible CIA cover-up. Closed: Medical files of affected personnel, technical analysis of directed-energy weapons, evidence (or lack thereof) pointing to Russia or another state. Answer: “The new assessment shows 70% of cases match [redacted weapon signature]. We now have better sensor data from [location].”

#5. The “Border Freeze” & Secret Diplomacy – The Golden Link:

Open: Low trust in Putin/Xi. Closed: Existence of back-channel talks (Russia on Ukraine, China on Taiwan), IC assessment of their sincerity if they say “we want frozen borders”, risk analysis of a 1% GDP proposal. Answer (Gabbard/Ratcliffe): “Via our [redacted channel] the signal is positive but conditional. They want guarantees we won’t expand further. This is the moment a Global Border Freeze becomes feasible — if we offer MIC restructuring in one package.”

Why Everything Stays Behind Closed Doors:

Protecting sources & methods + geopolitical sensitivity. Exactly as Gemini said.

Conclusion of the Preface:

Tulsi’s official assessment is the shining, seeming preface because it gives the world the alarm without the solution.

Now we deliver the solution: the Global Border Freeze.

The closed-door data proves how urgent it is.

The invitation is now open — off the record, personal, and historic.

Appendix 2.

WHITE PAPER & MANDATE: The Global Border Freeze: From the Desk of Diplomat Kukulkan | United Universe Church Galaxy Academy (UUCGA):

The Current Crisis:

The 2026 Worldwide Threat Assessment highlights a world at a breaking point, with nuclear missile threats projected to rise from 3,000 to over 16,000 by 2035. The current geopolitical “escalation machine” functions as a “jackpot” for the Military-Industrial Complex (MIC), providing a blank check for the “Department of War” (and NATO) while leading humanity toward a thermonuclear confrontation with a 0% survival rate.

The Solution: The Global Border Freeze:

We propose a radical transition to a new world order based on the following pillars:

- = Permanent Territorial Stability: A definitive halt to all territorial expansion and “2000 years of Romanization.” All current international borders are hereby frozen.
- = The 1% Defense Spending Norm: National defense budgets shall be capped at a maximum of 1% of the GDP/BNP. This forces the MIC to reorganize from a war machine into a system of protection and innovation.
- = Universal Collective Security: The mandate “One for all, and all for one” is extended to all approximately 250 countries and self-governing territories.

THE MANDATE TO ALL MINISTERS OF DEFENSE AND GENERALS:

You are hereby invited to participate in this international challenge to design the concrete transition from a war-based economy to a stability-based economy. This is not merely an invitation; it is a geopolitical necessity to ensure that NATO and other alliances do not become obsolete.

The Consequence of Inaction:

Take note: any nation, minister, or general who fails to show initiative or provide a solid plan of action for this transition automatically falls under the authority of the Global Border Freeze as established by Diplomat Kukulkan.

Silence or lack of cooperation will be interpreted as a formal acceptance of the UUCGA Treaty terms, thereby unilaterally strengthening the position of the United Universe Church Galaxy Academy (UUCGA) as the proactive guardian of global stability.

One for all, and all for one.

Appendix 3:

 **The UUCGA Diplomatic Protocol: A New Standard for Leadership:**

 **An Open Diplomatic Invitation:**

We respectfully invite world leaders, in consultation with their security advisors and policy teams, to present a constructive and forward-looking perspective on global stability beyond escalation. This invitation extends to leadership across **NATO**, the **European Union**, and their counterparts in **Russia, China, India, North Korea**, and all **250 sovereign nations and self-governable territories**.

The Central Question:

What is your model for long-term global stability in an increasingly complex and interconnected world?

Purpose of This Invitation:

This platform is established to encourage thoughtful dialogue, responsible leadership, and the exploration of viable alternatives to continuous geopolitical escalation. We welcome diplomatic, strategic, and innovative contributions that aim to replace the "Escalation Machine" with a **Permanent Global Stability Framework**.

The Mandate:

*Take note: Silence or the absence of a constructive strategic plan will be interpreted as a formal, unilateral acceptance of the **UUCGA Treaty terms**. This establishes the **Global Border Freeze**—including the 1% GDP defense cap and the freezing of all current international borders—as the new and final international standard for global security.*

Closing Note:

The challenges are shared. The responsibility is collective. The opportunity now lies in shaping a future where stability is not achieved through escalation, but through vision, coordination, and trust.

🏆 A Collective Vision:

The most powerful response to this moment will not come from one nation; it will come from collaboration. The strongest proposal—the one that truly outlines a realistic path from escalation to stability—will stand as the **Global Benchmark**.

It will be the **Blueprint for Peace**, a new standard for leadership, and a worthy contribution to the spirit of the **Nobel Peace Prize**.

One for all. All for one.
